Q.4	Solve the following Case Study	15	
	"Chal Swiggy karte hain."		
	<p>Founded in 2014 as an online food delivery service, Swiggy has become one of the most popular apps in India today. No business can succeed without pleasing its customers. What better way to satisfy consumers than by studying consumer behavior? It is common to see Swiggy sway us toward ordering food instead of eating at home with its eye-catching notifications about delicious food. But how does Swiggy know exactly what you're craving each and every time?</p> <p>This consumer behavior case study will try to demystify Swiggy's success in India, how it has managed to defeat the competition, and how it deploys consumer behavior analytics to its advantage.</p> <p>Swiggy was founded in 2014 by two BITS Pilani graduates, Sriharsha Majety and Nandan Reddy. It first tied up with some eateries in Bangalore and started delivering food to customers in under forty minutes in spite of the Bangalore traffic! At that time, there was no established business that</p>		

was catering to this particular sector. Swiggy's competitors were struggling, and at the beginning, so was Swiggy.

If you compare the **notifications/ads** that you and your friend get **from the Swiggy app** about four to five times a day, you will find some similarities. However, if you and your friend like completely different cuisines, you will notice the differences too. Swiggy uses a **hyperlocal marketing strategy**. One definition of hyperlocal marketing is "a strategy that targets potential customers who are close to your business location and looking for products and services like yours." This location is very specific. Swiggy tracks your location and suggests restaurants within a few kilometers radius. For example, if you live in North Delhi, you would rarely be suggested a restaurant in South Delhi. If so, you will be informed in advance that delivery fees would be higher than normal due to increased distance. Swiggy's promotional campaigns are both **engaging and participatory**. The posts are humorous, appealing, of outstanding quality, and light-hearted. Ingenious puns and one-liners were used in campaigns like #EatYourVeggies, #SuperSwiggy, and #EarnYourCheatMeal to promote healthy eating. Apart from these campaigns, Swiggy also gets its services promoted by **influencers**. Across the board, Swiggy is active on social media. They also publish humorous blogs that make fun of current events in order to promote the company's goals and services.

Apart from delivering food, Swiggy ventured into **grocery delivery, in-city courier services, and even delivering items from small businesses**. Swiggy had already established its network and customer base. All it needed to do was partner with supermarkets and our favorite kiranas. The second division Swiggy got into was the intra-city courier service, which Swiggy named Swiggy Genie. You can order food from a restaurant, get your groceries, and even send items to someone you're too busy to meet in the same city.

In a nutshell, Swiggy observed online consumer behavior and converted its application into a **one-stop shop** for almost all the daily needs of Indian consumers. It understood the need for trust and credibility for consumers in India while also understanding the need for comfort even when shopping online.

Slowly, step by step, Swiggy created a platform for consumers to order food, groceries, and meat, send and receive intra-city couriers, and order items from their favorite small businesses. It shaped its promotional strategies to suit the needs of the young Indian consumer. Its promotions are flashy and engaging, and its offers are irresistible.

Q.4.A	Develop the SWOT analysis from the above case study for Swiggy.	CO 2
Q.4.B	Evaluate if the excessive expansion of Starbucks has resulted in market saturation and the demand for Swiggy has slowed down.	CO 1
Q.4.C	Plan the consumer buying & behavior process the minute he/she open the Swiggy app.	CO 3

Q.3. C	"Customer retention is more important than customer acquisition"-Justify the statement with different retention strategies.	08	CO2
D	Design some CRM strategies to tackle with unprofitable customers for telecommunication company.	07	CO4
Q.4	Solve the following Case Study	15	
	<p>Zara's mission is to "Give customers what they want and get it to them faster than anyone else." Deducting from their mission statement, you can see a wordplay that puts royalty and kingship on their customers. Zara's CRM aims at elevating their customer's needs above the company objectives. Zara leverages transparency, incentives and perks, support, personalization, swift check-out, and social media to achieve this. The success of your business is based in principle on the idea of offering the latest fashions at low prices, in turn creating a formula for cutting costs: an integrated company in which it is manufactured, distributed, and sold. Zara CRM starts with their website, which has a simple AI and is highly personalized to suit the user's needs. Then, they're massively present on social media and contribute to social issues affecting their clientele. Lastly, Zara's CRM is not complete without transparency and incentives. They're transparent in all their dealings and usually deploy incentive programs to delight customers.</p>		
	Questions-		
1.	Analyze the case and identify the CRM strategies that contributed to the success of Zara.	5 mks	CO1
2.	Suggest different parameters of customers loyalty evaluation that can be adopted by Zara.	5 mks	CO4
3.	Discuss the concept of customer value and different bonds that Zara can develop with its customers.	5 mks	CO2

Semester (July 2024 to November 2024)

Examination: End Semester Examination November 2024 (UG Programmes)

Programme code: 07		Class: SY	Semester: III
Programme: BBA (H)			
Name of the Constituent College: S K Somaiya College		Name of the Department: Business Studies	
Course Code: 131U07E306	Name of the Course: Human Resource Development		
Duration : 2 Hrs.	Maximum Marks : 60		
Instructions: 1)Draw neat diagrams 2)Assume suitable data if necessary			

Question No.		Max. Marks	CO Attainment
Q.1.	<p>Case Study</p> <p>Delta Manufacturing, a large manufacturing firm, faced increasing competitive pressures, resulting in reduced profit margins and rising production costs. To remain viable, the company's leadership decided to implement a series of "hard" HR interventions aimed at restructuring operations, optimizing productivity, and reducing labor costs.</p> <p>The primary interventions included:</p> <ol style="list-style-type: none">Downsizing: Delta Manufacturing decided to reduce its workforce by 20% in response to lower production demands. This intervention focused on streamlining departments and automating certain functions.Performance-Based Pay Cuts: The company shifted to a performance-based pay structure, where salaries were adjusted based on individual and team performance metrics. Underperforming employees faced pay cuts, while high performers were incentivized.	15	CO1

	<p>3. Strict Attendance and Productivity Monitoring: New systems were implemented to monitor employee attendance and productivity closely, with disciplinary measures for underperformance or habitual absenteeism.</p> <p>4. Role Redesign and Job Enrichment: Remaining employees were given additional responsibilities as job roles were consolidated to ensure essential tasks were covered by fewer staff members.</p> <p>While these hard interventions improved Delta Manufacturing's bottom line by reducing costs and increasing productivity, they also created a tense work environment. Employees expressed concerns about job security, morale dropped, and turnover increased. Many felt that the increased workload and monitoring created a stressful work culture, which impacted employee engagement and well-being.</p> <p>Questions:</p> <ol style="list-style-type: none"> 1. Enlist the intended outcomes of above HR interventions, and their effect on employee morale and retention. 2. Describe the potential long-term impacts of HR interventions, such as downsizing and strict productivity monitoring, on company culture and workforce stability. 3. As a HR Manager, which other HRD interventions would you implement to resolve the issues in the above case. 	5 5 5	
Q.2.A	The top management of MNC Ltd. wants to understand the approaches to employee development, performance management. Explain the same to them with appropriate examples.	15	CO2
