Q.2.

## BALANCE SHEET OF MAU LTD.

15

LIABILITIES	₹	ASSETS	₹
90,000 Equity shares of ₹10 each	9,00,000	Goodwill	2,00,000
1,500, 10% Preference shares	1,50,000	Building	9,90,000
Profit & Loss Account	6,00,000	Machinery	5,40,000
12 % Debentures	6,00,000	Debtors	9,00,000
Bank Loan	1,50,000	Cash	3,60,000
Creditors	3,60,000	Bills Receivables	1,20,000
Bills Payable	3,90,000	Preliminary Expenses	40,000
	<b>31,50,000</b>		<b>31,50,000</b>

- a. Profits for previous years before tax: -  
2018 - ₹ 5,40,000, 2019 - ₹ 7,80,000, 2020 - ₹ 2,10,000, 2021 - ₹ 12,30,000.
- b. In the year 2020 loss of ₹ 1,20,000 was recorded due to fire.
- c. In the year 2021 profit of ₹ 2,40,000 were earned from the non-trading activity.
- d. In future expenses of ₹ 30,000 to be incurred for rent.
- e. Building & Machinery were revalued at ₹ 12,30,000 & ₹ 6,90,000.
- f. Debtors includes bad debts of ₹ 60,000.
- g. Transfer to general reserve was provided at 10%.
- h. Normal Rate of Return is 12% & Tax rate is 40%.
- Find out the value of Equity shares by:-  
Intrinsic value method, Yield method & Fair value method.

OR

Q.2.

Following are the details of Shiva Ltd.

15

Profits for the last four years: -

2019 - ₹26,00,000, 2020 - ₹ 64,00,00, 2021 - ₹ 58,00,000, 2022 - ₹ 72,00,000.

Capital employed: - Opening Capital ₹ 32,00,00, Closing Capital: - ₹ 48,00,000.

Normal rate of return is 10% p.a.

Additional Information: -

- a. In the year 2019 incurred losses by fire of ₹ 4,00,000.
- b. In the year 2022 company received profit of ₹8,00,000 from sale of machinery.
- c. In future rent of ₹ 2,00,000 likely to be incurred for new shop.

**Calculate Goodwill By: -**

- a. 5 years purchase of F.M.P. & Super Profit.
- b. Annuity method [ factor 3.25].
- c. Capitalization of F.M.P. & Super profit.

Q.3.

A. Briefly explain Diluted EPS in IND AS 33.

[ 8 Marks]

B. Explain differences between IND AS 33 &amp; AS 20.

[ 7 Marks]

15

OR

Q.3.

A. Calculate the number of equity shares which would be used for calculating EPS of the Deep LTD. company from the following information's: - [7 M]

15

DATE	PARTICULARS	No. of shares
1/4/2022	Opening balance	3,00,000
25/6/2022	Issue of Equity shares	2,25,000
15/11/2022	Conversion of convertible preference shares in Equity	1,50,000

10/2/2023	Buy Back of Equity Shares	60,000
31/3/2023	Closing Balance	6,15,000

B. CALCULATE EPS WHEN,

[ 8 M ]

PARTICULARS	2021	2022	2023
PROFIT FOR EQUITY SHAREHOLDERS	1,00,000	1,50,000	2,00,000

Shares outstanding before right issue	5,000 shares
Right Issue	1:5
Exercise price	₹ 6
Date of Right Issue	1 <sup>st</sup> Jan 2022
Last date to exercise rights	1 <sup>st</sup> April 2022
Market price before right issue	₹ 12
Reporting Date	31 <sup>st</sup> Dec.

Q.4. ANSWER THE FOLLOWINGS: - [ 3 MARKS EACH]

- Define Antidilution of shares.
- Explain Future Maintainable Profit.
- When valuation of share is required?
- Explain ex-interest price with example.
- Explain pre-acquisition dividend.

Describe the products strategies in rural marketing and give some examples. [8] d. State and explain the role and importance of packaging in rural marketing. [7]	15
Q.4	CASE STUDY  Transforming Rural India (TRI) is a Tata Trusts initiative that works to trigger the large-scale transformation of villages in regions of endemic poverty, especially in Madhya Pradesh, Jharkhand, and Chhattisgarh. The TRI initiative works in partnership with leading non-profit organizations, state governments, market players, civil society and private philanthropies to provide a range of services and linkages. Implementing health and nutrition-focused interventions across 342 villages in Madhya Pradesh, covering 1,035 habitations. 710 community volunteers, trained in community-led protocols, initiated discussions	15

covering 2,070 women groups in their respective villages. Implementing education interventions across primary schools in 566 villages in Madhya Pradesh. An MoU was signed with the Department of Education to facilitate engagement with teachers and schools. Direct support was facilitated to 198 schools and 731 community volunteers who were engaged with village organizations and School Management Committees. Mobilizing 'Kushal Kisan Abhiyaan', an initiative on rapid adoption of commercial agriculture using rural media channels, in three blocks of Jharkhand, covering almost 7,000 farmers. About 630 farmers increased their incomes by over Rs100,000; 98 agri-entrepreneurs were engaged as Value Chain Actors to facilitate rapid adoption of commercial agriculture. Protocols for the identification of crops suitable for rapid commercialization were finalized and pilot-tested. Launching the 'Sarathi' platform to support youth aspirants in villages in Madhya Pradesh, Jharkhand and Chhattisgarh, towards making informed career choices and connecting them to a screened pool of Training Service Providers (TSP). Agreements were signed with 7 well-known TSPs; partnerships are being explored with microfinance institutions to provide credit for self-funded training programs that offer better career opportunities. Catalyzing government action through the preparation of conservation-cum- development plans for particularly vulnerable tribal groups with annual funding of Rs1 billion, along with the Tribal Welfare Department of the Government of Madhya Pradesh; signing an MoU with Jharkhand State Livelihood Promotion Society; and extending support to Jharkhand's Gumla district administration for overall improvement. For implementing these programs Tata trust had to face many challenges. They had to arrange for the finance and as tribal people have different rituals, their way of living is also different from the other people of the state they had to strive very hard to make them know that the program is for their benefit.

#### **Future plans**

TRI's long-term goal is to reach 100,000 villages in 1,000 blocks transforming 200 million lives. In the immediate future, the goal is to:

- Intensify activities to enhance the quality of life of 25% of outreach households.

- Expand market solutions, including linking youth to skills and enterprises, along with a comprehensive approach to catalyze enterprises.
- Expand engagement with government via program design, creating and instituting formal mechanisms for coordination with frontline functionaries.
- Expand change engagement to 8 new blocks in Madhya Pradesh under the Government of India's flagship 'Mission Antyodaya' program, targeted to reach an additional 1,000 villages by 2021.
- Diversify livelihood opportunities through the 'Sarathi' platform and initiate a new program to launch rural entrepreneurs.

The rural market remains untapped because of mainly three challenges:-distance, diversity, and dispersion. As much as Rural India presents a great opportunity, there are still many challenges that have to be overcome. Dispersed population and trade, large number of intermediaries in the value chains leading to the higher costs, scarce bank and credit facilities for rural customers and retailers, highly credit driven market and low investment capacity of retailers are the other roadblocks. Thus, there are several roadblocks that make it difficult to take advantage of the rural market potential. Marketers encounter a number of problems like dealing with physical distribution, logistics, proper and effective deployment of sales force and effective marketing communication when they enter into the rural segments. The large population base and number of households indicates a widely spread out market and it is a challenge for the marketer to deal with this dispersed market. The number of the villages is more than five lakhs and is not constant in size. Nearly half of the population lives in middle sized villages which have a population ranging from 1000 to 5000 persons. These types of distribution of population warrants appropriate distribution and promotion strategies to decide the extent of coverage of rural market. The rural per capita income is low as compared to urban area. Low per capita income leads to low purchasing power. This apart, the distribution of income is highly irregular, since the landholding pattern, which is basic asset, is itself uneven. Thus, rural market presents a highly heterogeneous scene. Therefore few challenges arise in this respect, like; off-taking of any product by rural consumer, maintaining of inventory levels, distribution system options, and frequency of distribution. This aspect should be carefully considered by the

marketers. There is a deficiency of proper physical communication facilities in rural areas. Nearly half of the villages in the country do not have proper connectivity. Therefore reaching these villages is very difficult. Hence, distribution efforts put up by marketers prove to be expensive and ineffective. The rural market, by and large, is characterized by underdeveloped people and consequently underdeveloped markets.

**Read the case carefully and answer the following.**

**(each carries 5 marks)**

1. State various initiatives taken by Tata Trust to improve rural marketing infrastructure and rural marketing opportunities.
2. What are the difficulties faced by Tata Trust in implementing the Transforming Rural India concept?
3. State and explain some elements of infrastructure in Rural marketing you have come across.

Question No.		Max. Marks
Q.1		15m
A	Examine the factors to be considered before starting International Business operations.	8m
B	List the steps involved in preparation for the challenges to be faced in International Business.	7m
	OR	
C	Explain in detail the integration of Technology in Software Systems in Manufacturing and Automation in Production and Operations.	8m
D	Discuss the various aspects that lead to the failure of Mergers and Acquisition.	7m
Q.2		15m
A	Enumerate the factors that define the Scope of International Business.	8m
B	Explain the concept of Different school of thought with respect to Quantitative School and Systems School.	7m
	OR	
C	Interpret the importance of Political aspects in International Business.	8m
D	List the different stages involved in Marketing Internationalization Process.	7m
Q.3		15m
A	Discuss the aspect that states "Globalization changed the entire perspective of International Business."	8m
B	Justify the following statement with valid explanation. "MNC has completely changed the Indian Economy."	7m
	OR	
C	Explain the Significance of Ethics and Social Responsibility in International Business.	8m
D	Elaborate on SEBI Rules pertaining to FII's.	7m
Q.4	<b>CASE STUDY</b>	15m
	Tourism, Transportation and Business Services dominate International Trade in Services	
	Tourism and transportation have emerged as major components of international	

	<p>trade in services. Most of the airlines, shipping companies, travel agencies and hotels get their major share of revenues from their overseas customers and operations abroad. Several countries have come to heavily depend on services as an important source of foreign exchange earnings and employment. India, for example, earns a sizeable amount of foreign exchange from exports of services related to travel and tourism.</p> <p>Business services: When one country provides services to other country and in the process earns foreign exchange, this is also treated as a form of international business activity. Fee received for services like banking, insurance, rentals, engineering and management services form part of country's foreign exchange earnings. Undertaking of construction projects in foreign countries is also an example of export of business services.</p> <p>The other examples of such services include overseas management contracts where arrangements are made by one company of a country which provides personnel to perform general or specialised management functions for another company in a foreign country in lieu of the other country.</p>	
1)	Interpret the factors that make International trade of Services a difficult target to be achieved.	8m
2)	Explain the Importance of 7P's of Marketing used for the Service Industry.	7m

Q.3		15m
A	Discuss the Role of Globalization of markets with regards to International Business.	8m
B	List all the factors that lead to the Growth of MNC's.	7m
	OR	
C	Inspect all the factors that involve complexities in the buying of a Foreign Company.	8m
D	Examine the Four stages of Marketing that leads to Marketing Internationalization.	7m
Q.4	CASE STUDY	15m
	India Embarks on the Path to Globalization	
	International business has entered into a new era of reforms. India too did not remain cut-off from these developments. India was under a severe debt trap and	

	<p>was facing crippling balance of payment crisis. In 1991, it approached the International Monetary Fund (IMF) for raising funds to tide over its balance of payment deficits. IMF agreed to lend money to India subject to the condition that India would undergo structural changes to be able to ensure repayment of borrowed funds.</p> <p>India had no alternative but to agree to the proposal. It was the very conditions imposed by IMF which more or less forced India to liberalise its economic policies. Since then a fairly large amount of liberalization at the economic front has taken place.</p> <p>Though the process of reforms has somewhat slowed down, India is very much on the path to globalization and integrating with the world economy. While, on the one hand, many multinational corporations (MNCs) have ventured into Indian market for selling their products and services; many Indian companies too have stepped out of the country to market their products and services to consumers in foreign countries.</p>	<p>8</p> <p>7m</p>
1)	Discuss the Significance of Globalization to the Indian market.	
2)	Justify the statement "Evolution of MNC has changed the Entire India."	

Semester (November 2022 to March 2023)		
Examination: End Semester Examination March 2023 (UG Programmes)

	2,30,000	3,40,000		2,30,000	3,40,000

Prepare common size Balance Sheet and interpret the same.

15 Marks

Q3 A

The following is the balance sheet as on 31 march 2004 .

Liabilities	₹	Assets	₹
Equity Share Capital	2,00,000	Buildings	2,00,000
Preference Share Capital	1,00,000	Machinery	1,00,000
10% Debentures	2,00,000	Intangible Assets	1,00,000
General Reserve	1,50,000	Marketable Investment	1,00,000
Profit and Loss A/c	1,00,000	Debtors	50,000
Bank Overdraft	60,000	Stock	1,50,000
Provision for Tax	80,000	Bank Balance	1,10,000
Creditors	1,20,000	Advance for Goods	1,50,000
		Preliminary Expenses	1,00,000
	10,10,000		50,000
			10,10,000

Other information for the year ended 31st March, 2004 :

Sales ₹ 40,00,000. Cost of goods sold was 92.5% of sales. Total operating expenses were ₹ 1,50,000 out of which finance expenses were ₹ 30,000 and balance office expenses and selling expenses were in the ratio of 2:3. Non-operating Income was 2.5 times the amount of non-operating expenses, total non-operating expenses were ₹ 20,000 incurred during the year. Income tax provision ₹ 40,000. Transferred to general reserve ₹ 40,000. Contingent liabilities on 31st March 2003 was ₹ 1,50,000 not provided for. Closing stock as on 31st March, 2004 was more than opening stock by ₹ 10,000. Arrange the Balance sheets and Profit and Loss A/c in a vertical form and calculate the following ratios.

(1) Current Ratio (2) Liquid Ratio (3) Stock Turnover Ratio (4) Debtors Turnover Ratio and Collection period Debtors on 1st April, 2003 were ₹ 2,50,000. Assume 360 days in year. (5) Capital Gearing

Q.2	<p>(A) Mr. Dhaval, registered in state of Gujrat provides following details for the month of June. Calculate his net Tax Liability for the month of June.</p> <p>Opening Balance in Electronic Credit Ledger as on 1st June: IGST - 8,000 CGST – 64,000 SGST- 16,000</p> <p>Transactions during the month :</p>	<p>(08)</p>																

Particulars	₹
Sold Goods @ 18 % GST to Meenal in Baroda, Gujrat	32,00,000
Sold Goods @ 12% GST to Chetan in Chennai, Tamilnadu	48,00,000
Sold Goods @ 5% GST to Amit in Jaipur, Rajasthan	12,00,000
Purchased goods @ 18% GST from Surat, Gujrat	14,00,000
Provided Services @ 5% GST to Apeksha in Delhi	3,20,000
Availed Services @ 18% GST from Mumbai, Maharashtra	12,00,000

(B) Shri Sai Ltd., a registered dealer, furnishes the following information relating to goods sold by it to B Ltd. in the course of intra-State supply.

Particulars	₹
1. Price of the goods	6,00,000
2. Municipal tax	8,000
3. Inspection charges	60,000
4. Subsidy received from Shri Krishna Trust (as the product is to be used by a blind association)	1,00,000
5. Late fees for delayed payment (though B Ltd. made late payment but these charges are waived by Shri Sai Ltd.)	6,000
6. Weighment charges [B Ltd. pays to R Ltd. (on behalf of Shri Sai Ltd.)]	4,000

Determine the value of taxable supply (as per GST law) made by Shri Sai Ltd. Items given in (2) to (6) are not considered while arriving at the price of the goods given in (1).

OR

(C) You are required to calculate, ITC available for the month of March 2021 from the given information of Ajanta Ltd.

Particulars	₹
Accounting services availed	36,000
Professional fees paid to Mr. Avi for providing Auditing Services	18,000
Refreshments provided during Annual Day celebrations	72,000
Raw Materials used in production process	54,000
Repairs of building premises (No tax invoice available)	1,26,000
Purchase of Plant & Machinery	90,000
Inputs purchased for constructing 1st floor	8,000
Pick up and Drop facility for employees (mandatory)	50,000

(D) From following transactions related to Continuous Supply of goods, find out the time of supply for each of the case:

Sr. No	Date of Invoice	Date of Statement of Accounts	Date of receipt of payment
1	30-11-2022	05-12-2022	11-12-2022
2	05-11-2022	05-11-2022	04-11-2022
3	20-12-2022	19-12-2022	22-12-2022
4	25-12-2022	02-01-2023	10-01-2023

5	22-01-2021	19-01-2021	11-01-2021
6	22-10-2022	25-11-2022	12-11-2022
7	16-12-2022	6-12-2022	10-12-2022

Q.3

(A) Ms. Ramakiran, states the following transactions of her business in Rajasthan. Is she liable to get registered under GST? If yes from when?

(08)

Date	Particulars	Amount
05/12/2012	Goods supplied to Pali	9,00,000
07/12/2022	Services provided to Ajmer	6,80,000
09/12/2022	Goods purchased from Jodhpur	5,50,000
11/12/2022	Services provided to Jaipur	15,30,000
12/12/2022	Services provided to Udaipur	3,70,000
15/12/2022	Goods supplied to Kota	5,00,000
20/12/2022	Services availed from Bikaner	8,00,000

(B) Explain the provision of Special audit.

(07)

OR

(C) Describe the process of registration u/s 25.

(08)

(D) Discuss the provisions for furnishing the details of outward supply u/s 37.

(07)

Q.4

Explain the following concepts: ( 5 mark each)

(15)

(A) Receipt Voucher and its content

(B) Electronic cash ledger.

(C) Mixed supply with examples

- (iii) The sales required to earn a profit of ₹ 40,000
- (iv) Profit when sales are ₹ 2,50,000
- (v) Margin of safety at a profit of ₹ 50,000
- (vi) Variable costs of the two period

OR

Q - 1

- A) A transport company supplies the following details in respect of a truck of 5 tonne capacity which carries goods to and from the city covering a distance of 50 kms each way.

Particulars	₹
Cost of truck	1,80,000
Diesel, oil, grease (per trip each way)	30
Repairs and maintenance (per month)	1,500
Driver's (monthly) wages	1,500
Cleaner-cum-attendant's wages (monthly)	750
Insurance (per year)	9,000
Road license (per year)	3,000
General Supervision charges (per year)	6000
Estimated life (years)	10

While going to the city, freight is available for a full load of the truck and on its return journey it can fetch freight only upto 20% of its capacity.

On the assumption that the trucks run on an average 25 days a month, you are required to determine the following:

- (i) Operating cost per tonne-km,
- (ii) Rate per tonne per trip that the company should charge if profit of 50 percent on cost is to be earned, and
- (iii) What freight should the company charge if one wants to engage the truck for one day for a trip to the city and back?

- B) Prepare a Statement of Equivalent Production.

Particulars	Degree of completion		
Opening stock	1600 units	Materials	70%
		Labour	60%
		Overhead	60%
Transfer from Process I	10,200 Units		
Transfer to next process	9,200 Units		
Units scrapped	800 Units		
Normal loss	10% of Input		
Closing stock	1,800 Units	Materials	60%
		Labour	40%
		Overhead	40%

7  
Marks

Q-2

- A) A product passes through three processes— A, B and C. 10,000 units at a cost of ₹ 1.10 were issued to Process A. The other direct expenses were as follows:

	Process – A	Process – B	Process – C
Sundry Materials	1,500	1,500	1,500
Direct Labour	4,500	8,000	6,500
Direct Expenses	1,000	1,000	1,503

8  
Marks

The wastage of process 'A' was 5% and in process 'B' 4% The wastage of

process 'A' was sold at ₹ 0.25 per unit and that of 'B' at ₹ 0.50 per unit and that of C at ₹ 1.00. The overhead charges were 160% of direct labour. The final product was sold at ₹ 10 per unit fetching a profit of 20% on sales. Find out the percentage of wastage in Process 'C'.

B) Following figures have been extracted from the books of M/s. PQR Ltd.

Year	Sales (₹)	Total Cost (₹)
2020	4,00,000	4,15,000
2021	5,00,000	4,85,000

You are required to calculate:

1. PV Ratio, Fixed Costs, Break Even Point.
2. Sales required to earn a profit of ₹ 45,000.
3. Margin of Safety in the year 2021.

OR

A) Given below is the Trading and Profit and Loss Account of Vikas Electronics for the accounting year ended 31st March, 2017.

Dr. Trading and Profit & Loss Account Cr.

Particulars	₹	Particulars	₹
To Materials Consumed	3,00,000	By Sales A/c (2,50,000 units @ ₹ 3)	7,50,000
To Direct Wages A/c	2,00,000		
To Factory expenses A/c	1,20,000		
To Office expenses A/c	40,000		
To S & D expenses A/c	80,000		
To Net Profit	10,000		
	7,50,000		7,50,000

Normal output of the factory is 2,00,000 units. Factory overheads are fixed upto ₹ 60,000 and office expenses are fixed for all practical purposes, selling and distribution expenses are fixed to the extent of ₹ 50,000 the rest are variable. Prepare Cost sheet and a Statement of Reconciliation of Profit as per Cost Accounts and Financial Accounts.

B) An entrepreneur owns a bus which runs from Mumbai to Pune and back for 25 days in a month. The distance from Mumbai to Pune is 170 kms. The bus completes the trip from Mumbai to Pune and back on the same day. Calculate the fare to be charged to passengers if a profit of 33 1/3<sup>rd</sup> % on cost is expected.

The following further information is available:

Particulars	₹
Cost of Bus	3,00,000
Salary of Driver per month	1,050
Salary of Conductor	700
Fixed Office Overheads	480
Insurance p.a.	6,720
Diesel consumption 16 kms. per litre costing	25 per litre
Local Taxes p.a.	1,200
Oil and Lubricants per 100 kms.	20
Repairs and Maintenance p.a.	1,000

	<div>License Fees p.a. Normal Seating Capacity Depreciation Rate</div> <div>2,840 50 passengers 20% p.a.</div>																																					
	The bus usually runs full upto 90% of its capacity both ways. Permit fee is payable on the cost of bus at 10%p.a.																																					
Q-3	<p>A) New Ranjeet Hotel has three types of suites for its customers, viz. single room, double room and three rooms respectively. 	<p>B) R Ltd. Manufacturing chairs provides the following information:</p> <p>Fixed cost ₹ 50,000 for the year Variable cost ₹ 20 per chair Capacity 2,000 chairs per year Selling Price ₹ 70 per chair</p>	7 Marks																																				

From the above-mentioned information, Find:

- BEP
- Number of chairs to be sold to get a profit of ₹ 30,000
- BEP & Sales, if the selling price changes to ₹ 60 per chair
- What should be the Selling price to maintain a profit per chair as at ii) above, if the company can manufacture 600 chairs more per year with an additional fixed cost of ₹ 2,000?

OR

Q-3

- A) Product-X is obtained after it passes through three distinct processes. You are required to prepare process account from the following information:

	Total	Process I	Process II	Process III
Material	15,084	5,200	3,960	5,924
Direct wages	18,000	4,000	6,000	8,000
Production overheads	18,000	-	-	-

1,000 units @ ₹ 6 per unit was introduced in Process I production overhead to be distributed at 100% on direct wages.

ACTUAL OUTPUT	UNITS	NORMAL LOSS	VALUE OF SCRAP (₹ per unit)
Process-I	950	5%	4
Process-II	840	10%	8
Process-III	750	15%	10

Prepare Process Accounts for I, II & III, Normal Loss A/c, Abnormal Loss A/c.

- B) The net profits of a manufacturing company appeared at ₹ 64,500 as per financial records for the year ended 31st December, 2016. The cost books however, showed a net profit of ₹ 86,460 for the same period. A careful scrutiny of the figures from both the sets of accounts revealed the following facts.

	₹
(i) Income-tax provided in financial books	20,000
(ii) Bank Interest (Cr) in financial books	250
(iii) Work overhead under recovered	1,550
(iv) Depreciation charged in financial records	5,600
(v) Depreciation recovered in cost	6,000
(vi) Administrative overheads over-recovered	850
(vii) Loss due to obsolescence charged in financial accounts	2,800
(viii) Interest on Investments not included in cost accounts	4,000
(ix) Stores adjustments (Credit in financial books)	240
(x) Loss due to depreciation in stock value	3,350

Prepare Reconciliation Statement.
