VIDYAVIHAR UNIVERSITY

Semester (November 2023 to March 2024)		
Examination: End Semester Examination April 2024 (UG Programmes)		
Programme code: 01	Class: TY	Semester: VI
Programme: Commerce (H)		
Name of the Constituent College: SK Somaiya College	Name of the Department Commerce	
Course Code: 131U01E601	Name of the Course: International Business Management	
Duration : 2 Hrs.	Maximum Marks : 60	
Instructions: Quote relevant examples where required.		

Question No.		Max. Marks	Co Attainment
Q 1	<p>a. Is it easy or difficult for a company to grow into MNC? Support your answer with relevant examples.</p> <p>OR</p> <p>b. Identify and explain in detail the style of management in which diverse opinions by the team are welcomed, however the manager is ultimately responsible for decision-making.</p>	15	CO 2
Q.2	<p>a.i. Indian companies follow three strategic trajectories in overseas market. Recall and explain them.</p> <p>ii. 'The route of entry into international market is essential.' Support your answer with the help of stages in internationalization.</p> <p>OR</p> <p>b. Elucidate the changes made in SEBI (Foreign Institutional Investors) Regulation, 1995.</p>	15	CO 4
Q.3	<p>Read the following case and answer the questions:</p> <p>In September 2001, Sundaram Clayton (of the TVS group of companies) and Japanese automobile major Suzuki Motor Corporation (SMC), partners in the joint venture TVS Suzuki (TVS Suzuki), India's second largest motorcycle company, announced their decision to break-up. Suzuki signed an agreement with TVS, according to which the existing licensing arrangement was to continue for 30 months. TVS agreed to pay royalty to Suzuki for this period. The break up did not come as a surprise to industry observers, as rumors about the straining relations between TVS and Suzuki had surfaced in the early 1990s itself.</p> <p>Though both TVS and Suzuki refused to comment, their differences over the issues of management control and ownership had become well-known.</p>	15	CO 3

T.V. Sundaram started the TVS Group with a small transport business in Chennai in 1911. Over the years, the group diversified into two-wheelers, automotive components, automotive spares, computer peripherals and financial services.

However, the group was particularly successful in its automotive component and two-wheeler businesses. By 2001, with around 25 companies in its fold, TVS emerged as one of India's leading two-wheeler manufacturers. Sundaram Clayton was the flagship company of the group and owned a controlling stake in TVS. Suzuki's history dates back to 1903, when Michio Suzuki founded Suzuki Loom Works in Hamamatsu in Shizuoka, Japan. For the first 30 years, the company focused on the development and production of complex machines for Japan's silk industry. In 1937, the company diversified into manufacturing cars for the Japanese market. In 1952, it manufactured its first motorized bicycle called 'Power Free.' By 1954, the company was producing around 6,000 cars per month and in the same year its name was changed to Suzuki Motor Co.Ltd.

Differences between TVS and Suzuki first surfaced in 1992, when TVS approached Suzuki for more funds and technology for new models, to meet the intensifying competition in the motorcycle segment.

Reportedly, Suzuki not only refused to provide funds and technology for the new models, but also created roadblocks to the management instead of helping them. A company watcher said, "Everything without exception had to be approved by Suzuki." TVS Suzuki was thus left with no option but to use its internal accruals for putting in place the turnaround strategy. Instead of getting new technology from Suzuki, TVS Suzuki had to re-engineer the basic Suzuki models, which led to the launch of the Samurai and the Shogun. The next major dispute between the two parties arose in the mid-1990s, when Suzuki, which had around 26% stake in the company's equity holding, expressed its desire to increase the equity holding.

The transition period of 30 months was long enough for TVS to become technologically self-reliant. Meanwhile, the company's name was changed to TVS Motor Company Limited in November 2001. In December 2001, TVS Motor Company opted for an early end to the licensing agreement with Suzuki and asked for expiry of the agreement by the end of April 2002.

- a. From the above case study, what led to the breakup of their joint venture?
- b. From the above case study, what do you think are the advantages of Joint ventures?
- c. From the above case study, what are the risks involved in

	Joint ventures?		
Q.4	<p>a. Mr. A, a junior in your company is asking you the difference between international business and domestic business. Help him understand by stating any three bases of differentiation.</p> <p>b. Mr. X, head of the Marketing department, is explaining the necessity of international business for the company. Assume his position and explain.</p> <p>c. Mention any three MNCs in the food and beverage industry who have an international presence.</p> <p>d. 'The drivers of globalization are associated with the growth of the company.' Describe any three drivers of globalization briefly.</p> <p>e. Write a brief note on 'evolution of global businesses.</p>	15	CO 1

	iv) Capital gearing ratio						
	v) Debt equity ratio						

Q.3.

A. The Board of Directors of Apana Ltd. requested you to prepare a statement showing the working capital requirements forecast for a level of activity of 16,000 units of production.

The following information is available for your calculation:

	(Rs. Per Unit)
Raw Materials	36
Direct Labour	16
Overheads	30
	82
Profit	24
Selling Price	106

- Raw materials are in stock on average two month.
- Materials are in process, on average one month.
- Finished goods are in stock, on average two month.
- Credit allowed by suppliers two month.
- Time lag in payment from debtors one month.
- Time lag in payment of wages – two month.
- Lag in payment of overheads - one month.

25% of the output is sold against cash. Cash in hand and at Bank is expected to be Rs. 1,00,000. It is to be assumed that production is carried on evenly throughout the year. Wages and overheads accrue similarly.

OR

B. Following are summarized Balance sheets of Bombay Ltd as on 31<sup>st</sup> Dec 2021 and 2022.

Liabilities	2021	2022	Assets	2021	2022
Equity Shares	30,000	33,000	Cash	3,900	3,000
Preference Shares	5,000	4,000	Prepaid Rent	600	500
Debentures	6,000	2,000	Stock	24,000	22,000
Creditors	5,180	5,920	Debtors	7,500	8,500
Bills payable	350	400	Building	13,550	15,000
Profit and loss a/c	12,020	10,280	Goodwill	9,000	6,600
	58,550	55,600		51,550	51,600

**Additional information:**

- Dividend paid amounted to Rs.2,000.
- Provide depreciation on building 2,550 and amount provided for the amortization of goodwill amounted to Rs.6,000.
- Debentures were repaid.

**You are required to prepare cash flow statement as per AS 3 (Use indirect method)**

Q.4.

**Attempt the following:**

**(05 Marks each)**

A. From the following information calculate Debtors turnover ratio and velocity in days and Creditors turnover ratio and Stock turn over.

Sales	10,00,000
Opening stock	2,00,000
Purchases	3,00,000
Closing stock	1,00,000

<b>Instructions: All Questions are Compulsory</b>		

<b>Question No.</b>		<b>Max. Marks</b>	<b>CO</b>
Q-1A	Explain the concept of joint venture, outlining its merits and demerits. Utilize real-world examples or case studies to illustrate the advantages and disadvantages of this entry mode in international business contexts.	08	CO1
B	You have been appointed as a business development manager for a multinational corporation planning to expand its operations into a new region. Explain in detail the concept of the commercial environment, highlighting its key components and their significance for international business expansion.	07	CO1
Q-1C	<b>OR</b> Explain the international marketing research process, outlining its key steps and significance for global business expansion. Provide a practical example or case study to illustrate how effective market research can drive successful international marketing campaigns.	08	CO2
D	Explain the international Product Life Cycle, highlighting its key stages and implications for global product management.	07	CO2
Q-2 A	Define dumping and explain its types and reasons within the context of international trade.	08	CO3
B	Explain in detail the factors influencing the selection of a distribution channel for your products. Provide practical examples or case studies to illustrate how these factors can impact distribution channel decisions and contribute to the success of your company's market expansion strategy.	07	CO3
Q-2 C	<b>OR</b> As a marketing consultant advising a service-based multinational corporation, explain the need for international service marketing in today's global business landscape.	08	CO4

D	Define service culture and explain its building blocks in detail. Provide practical examples or case studies to illustrate how each building block contributes to the development of a customer-centric organizational culture.	07	CO4
Q-3 A	<p><b>Solve the given below case study: ( 5*3=15)</b></p> <p>McDonald's Localization Strategy in India: McDonald's has been successful in India by adopting a localization strategy that involves adapting their menu to suit the local palate. For example, McDonald's India offers vegetarian options like the McAloo Tikki burger, which is made with a spicy potato patty, as well as regional dishes like the Masala Dosa burger. Additionally, McDonald's India also offers delivery and drive-through services, which are popular in India due to the heavy traffic and limited parking in many urban areas.</p> <p>The digital economy, everyone wants in but some are doing better than others. While McDonald's may seem like a traditional brand it has made great strides in modernizing its customer experience. From adding digital ordering kiosks in restaurants to creating one of the most widely used mobile apps in the retail sector it is not stuck in the past.</p> <p>Most recently McDonald's took a page from Starbucks who is often praised for its tech and introduced its own loyalty program. Loyalty programs have been around forever, you are probably enrolled in several. But the loyalty programs retailers are employing today are being used as a clever way to gather more data on customers and as a way to turn customers into digital shoppers. Take a look at how McDonald's is using its loyalty program as well as other digital initiatives to stay ahead of the competition.</p> <p><b>Questions</b></p> <ol style="list-style-type: none"> <li>1. Summarize the above case with reference to Indian market?</li> <li>2. Justify the digital marketing strategies adopted by McDonald to meet the demand of Indian consumers by serving its menu online?</li> </ol>	15	C02

	3. Enumerate the factors influencing selection of a distribution channel?		
Q-4	<b>Attempt the following concept questions. Three marks each</b>  a) OPEC b) Anti-Dumping Law c) Gray Market d) Segmentation, Targeting and Positioning (STP) e) International Service Marketing	15

Q.3	a. "Indian rural markets offer a significant rural opportunity to create a new product, a cost effective method." Justify the sentence with the help of Product design decisions. <b>OR</b>	15	CO 3
	b. The Government of India plans to tie-up with the Centre to ensure a strong marketing network and infrastructure support for the promotion of rural artifacts and handicrafts, through self-help groups (SHGs). State some infrastructure facilities in detail and how they work to enhance the rural marketing in agricultural and artifact products.	15	CO 3
Q.4	CASE STUDY	15	CO 4

Mother Dairy is a leading brand offering milk, milk based products & other food items in India. Mother Dairy product portfolio is majorly divided based on the three brands Mother Dairy, Dhara and Safal. These brands cover the product strategy in the marketing mix of Mother Dairy.

Mother Dairy, the parent brand, is mainly concerned with the whole dairy product range. The product depth and length is quite extensive creating a huge overall product range. The Mother Dairy product range is categorized into milk ,milk products and ice creams segments. The milk segment consists of bulk vended milk, poly packed milk, ultra heat treatment milk.

The Mother Dairy milk products segment comprises different types of curds, probiotic drinks, paneer, butter, cheese, ghee, cream, sweets, lassi, butter milk etc. The ice creams segment consists of various classic flavours, Indian versions such as kulfi and sugar free variants.

Safal which majorly deals in fruits and vegetables has a wide variety of products comprising frozen vegetables and snacks, juices and drinks, jams and marmalades, pickles, tomato ketchup and puree, honey and unpolished pulses. It also caters to daily needs of fresh fruits and vegetables.

Dhara which deals in edible oils has various cooking oils like groundnut oil, olive oil, soya bean oil, sunflower oil, vegetable oil and different variants of mustard oils. All these cover the offerings of Mother Dairy.

Mother Dairy, one of the leading dairy companies in Delhi NCR, has said that while supply-chain problems persist for the company due to the lockdown, it is prepared to handle the situation. While the company currently is not facing issues related to packaging material of the milk, other items are posing problems. "Corrugated boxes, packing paper cups and other things, these are going to be a problem because their labour is also not available. We are facing problems in re-starting the whole cycle," Sangram Chaudhary, executive director, Mother Dairy, told ET Now in an interview. The logistics is also posing much

challenge but the company said that it is prepared to manage as it has been doing in the last few days as well.

Mother Dairy's rival Amul had also recently said that while the company has seen many lockdowns, curfews and riots in the past, the current situation has brought its own set of challenges. "Unlike in the "lockdown" where the idea was to get as many people to physically come to office, this time we had to keep them to the minimum without any disruption in operations," he wrote in The Indian Express this week. He added that to make 30 lakh-odd farmers in around 18,500 villages ensure to remove difficulties of the FMCG distribution.

India's poor road network and lack of investment in cold chain infrastructure have long challenged the country's dairy industry, highlighting the value for companies of undertaking the tough task of establishing their own milk collection.

"Dependence on contractors for milk collection leads to a high level of compromise on the quality of milk," Kuldeep Sharma, founder of New Delhi-based dairy industry consultants Suruchi Consultants, says. He says with collection points thinly dispersed in rural areas and summer milk supplies often being scarce, hands-on control over milk collection makes sense.

Siva Nagarajan, managing director of Indian dairy company Mother Dairy Fruits & Vegetables, says these difficulties are compounded by hot ambient temperatures, which makes sourcing competency crucial to ensuring milk quality. "The question is how well you are able to assure milk availability," he tells just-food.

This is particularly challenging given what a study from the Associated Chambers of Commerce and Industry of India (ASSOCHAM) said is the country's "concentration" of milk production in pockets of the state. That is good news for companies based in areas with burgeoning dairy sectors, such as Andhra Pradesh, Rajasthan, Kerala, Karnataka and Gujarat. However, other states have much lower dairy production, for instance northern states such as Jammu & Kashmir, or Himachal Pradesh. This, together with the high cost of transportation in India's

under-financed infrastructure has led to increasing disparities between states in terms of per-capita milk availability, according to the ASSOCHAM report.

What is needed is more investment, ASSOCHAM argues. "It is imperative for India's dairy industry to streamline its value chain processes and integrate the smallholder dairy producers to improve the overall performance of the industry, more so as they possess inherent strengths like low production costs, lower liabilities and limited liquidity risk."

Questions:(each carries 5 marks)

1. Read the case and state the problems faced by Mother dairy.
2. What according to you are the reasons for the problems faced by the company?
3. Suggest some solutions to the company so that they can cope up with the challenges and continue with the smooth distribution of the products.

2. Following is the summarized Profit and loss Account of XYZ Industries for the year ended 31<sup>st</sup> March, 2023.

**Profit and loss Account for the  
year ended 31<sup>st</sup> March, 2023**

Particulars	₹	Particulars	₹
To Materials Consumed	2,00,000	By Sales (12,000 units)	4,80,000
To Wages	75,400	By Closing Stock	
To Factory Expenses	54,600	(3000 units)	66,000
To Administrative Overheads	52,500	By Interest on Securities	17,000
To S & D Overheads	96,000	By Profit on Sale of Assets	1,20,000
To Interest on Loans	14,000		
To Income Tax	7,500		
To Net Profit	1,83,000		
	<u>6,83,000</u>		<u>6,83,000</u>

The cost accounting record for the above period showed the following:

- Material consumed @ ₹ 10 per unit produced.
- Direct Wages @ ₹ 6 per unit produced.
- Factory overheads were absorbed @ 25% of Prime Cost.
- Administrative Overheads were absorbed @ ₹ 5 per unit produced.
- Selling and Distribution overheads were absorbed @ ₹ 7 per unit sold.

You are required to prepare the Cost Sheet for the year ended 31-03-2023 and a Statement of Reconciliation. (15)

OR

ABC Ltd. has furnished the following information from the financial books for the year ended 31<sup>st</sup> March, 2023.

**Profit and Loss Account**

Particulars	₹	Particulars	₹
To Opening Stock (500 units at ₹ 140 each)	70,000	By Sales (10250 units)	28,70,000
Material Consumed	10,40,000	By Closing Stock (250 units at ₹ 200 each)	50,000
Wages	6,00,000		
Gross Profit c/d	12,10,000		-
	<u>29,20,000</u>		<u>29,20,000</u>
To Factory Overheads	3,79,000	By Gross Profit b/d	12,10,000
Office overheads	4,24,000	Interest	1,000
Selling Expenses	2,20,000	Rent Received	40,000
Bad Debts	16,000		

Preliminary Expenses	20,000		
Net Profit	1,92,000	-	
	12,51,000		12,51,000

The cost sheet shows the cost of materials at ₹ 104 per unit produced and the labor cost at ₹ 60 per unit produced. The factory overheads are absorbed at 60% of labor cost and administration overheads at 20% of factory cost. Selling expenses are charged at ₹ 24 per unit. The opening stock of finished goods is valued at ₹ 180 per unit.

You are required to prepare:

- A statement showing profit as per Cost accounts. And
- A statement showing the reconciliation of profit as disclosed in cost accounts with the profit shown in financial accounts.

2. Modern Company Limited furnishes the summary of Trading & Profit & Loss Account for the year ended 31<sup>st</sup> December, 2023

3

**Profit and Loss Account**

Particulars	₹	Particulars	₹
To Raw Materials	1,39,600	By Sales (12,000 units)	4,80,000
To Direct Wages	76,200	By Finished Stock	
To Production Overheads	42,600	(200 Units)	8,000
To Admin Overheads	39,100	By Work-in-Progress:	47,995
To S&D Overheads		By Interest on Securities	6,000
To Prel Expenses w/off	42,700		
To Goodwill written off	2,200		
To Dividend (Net)	2,501		
To Income Tax	3,000		
To Net Profit	4,100		
	1,89,994		
	5,41,995		5,41,995

The scrutiny of Cost records for the same period shows that:

- Factory Overheads have been allocated to the production at 20% on Prime Cost.
- Administration Overheads have been charged at ₹ 3 per Unit on Units Produced.
- Selling & Distribution expenses have been charged at ₹ 4 per Unit on units sold.

You are required to prepare a statement of cost to and reconcile the same with

The profit shown in the Financial Accounts.

(15)

OR

Following is the Profit & Loss Account as per financial records of Kavita Enterprises for the year ended 31<sup>st</sup> March, 2023.

Dr.

Cr.

Particulars	₹	Particulars	₹
To Materials Consumed	5,20,000	By Sales (16,000 kgs)	20,72,000
To Direct Wages	2,55,000	By Closing Stock:	
To Factory Overheads	3,60,000	Finished Goods	
To Office Overheads	4,00,000	(2000 kgs)	1,50,000
To Sales Overheads	8,00,000	By Rent Income	1,50,000
To Income Tax	30,000		
To Net Profit	7,000		
	23,72,000		23,72,000

For the same period Cost Accounts Records showed the following:

- Material consumed 20,000 kgs. @ ₹ 27 per kg.
- Direct wages 3,000 days @ ₹ 90 per day.
- Factory overheads @ 20% of the Prime cost.
- Administrative overheads ₹ 30 per kg of output produced.

- i) Cost Statement for the year ended 31<sup>st</sup> March, 2023 and
- ii) Statement of Reconciliation.

Year	Sales (Rs.)	Profit (Rs.)
2022	40,00,000	8,00,000
2023	55,00,000	12,50,000

(c) Calculate: i. Total kilometers  
ii. Total passenger kilometers

from the following details:

In the month of April 2023, a transport company operated 6 buses between 2 cities which are 80 kms apart. Each bus makes 3 round trips per day.

The seating capacity of each bus is 48 passengers.

The buses ran on all days of the month with 90% occupancy.
