### QUESTION PAPERS

|                                      |          |
|--------------------------------------|----------|
| BRANCH: Bachelor of Commerce (Hons.) | SEM: III |
|                                      | OCT-2022 |

| Sr. No. | Subject  | Available |
|---------|--|-----------|
| 1.      | Business Statistics  |           |
| 2.      | 131U01C102 – Financial A/C III (A)                           |           |
| 3.      | 131U01C104 – Financial Management I (A)                      |           |
| 4.      | 131U01C104 – Financial Management (B)                        |           |
| 5.      | 131U01K301 – IT in Commerce (A)                              |           |
| 6.      | 131U01K301 – IT in Commerce (B)                              |           |
| 7.      | 131U01K301 – Quantitative Methods I                          |           |
| 8.      | 131U01C301 – Organization Structure (A)                      |           |
| 9.      | 131U01C303 – Company Law 2013                                |           |
| 10.     | 131U01C305 – Fundamentals of OB & HR (A)                     |           |
| 11.     | 131U01C104- Financial Management <sup>I</sup> <sub>(C)</sub> |           |
| 12.     | 131U01C102- Financial A/c III (B)                            |           |
| 13.     | 131U01C301- Organization Structure (B)                       |           |
| 14.     | 131U01C305- Fundamentals of OB & HR (B)                      |           |

**SOMAIYA**  
VIDYAVIHAR UNIVERSITY

**October 2022**

**Examination: Semester Examination (UG Programmes)**

**Programme code:01**

**Programme: B.COM [H]**

**Class: SY**

**Semester: III**

**Name of the Constituent College: S.K.SOMAIYA**

**Name of the Department:  
COMMERCE**

**Course Code:**

**Name of the Course: Business Statistics**

**Duration : 2 Hr.**

**Maximum Marks : 60**

**Instructions: 1) All questions are compulsory. 2) Figures to the right indicates full marks.**

| Q. NO.            |  | Max. Marks     |        |         |         |         |         |         |           |    |   |    |    |    |    |       |      |       |       |       |       |       |       |           |   |   |    |    |    |    |   |                |       |       |       |        |         |         |           |   |    |    |    |    |   |                   |       |       |       |       |       |        |       |              |   |   |   |    |    |   |   |  |

| Q2                | <p>a) The following data is about size of garment and daily pocket allowance for eight children. Calculate the Karl Pearson's coefficient of correlation and interpret it. 8 M</p> <table><tr><td>X</td><td>20</td><td>22</td><td>18</td><td>17</td><td>10</td><td>25</td><td>7</td><td>15</td></tr><tr><td>Y</td><td>15</td><td>17</td><td>16</td><td>10</td><td>5</td><td>19</td><td>4</td><td>8</td></tr></table> <p>Q2 b) ANSWER THE FOLLOWINGS:- [ 7 M]</p> <p>i) What is the chance that a leap year selected at random will contain 53 Fridays?</p> <p>ii) What is the chance that a non-leap year selected at random will contain 53 Tuesdays?</p> <p style="text-align: center;"><b>Or</b></p>  | X              | 20     | 22      | 18      | 17      | 10      | 25      | 7         | 15 | Y | 15 | 17 | 16 | 10 | 5     | 19   | 4     | 8     |       |       |       |       |           |   |   |    |    |    |    |   |                |       |       |       |        |         |         |           |   |    |    |    |    |   |                   |       |       |       |       |       |        |       |              |   |   |   |    |    |   |   |  |
| X                 | 20   | 22             | 18     | 17      | 10      | 25      | 7       | 15      |           |    |   |    |    |    |    |       |      |       |       |       |       |       |       |           |   |   |    |    |    |    |   |                |       |       |       |        |         |         |           |   |    |    |    |    |   |                   |       |       |       |       |       |        |       |              |   |   |   |    |    |   |   |  |
| Y                 | 15   | 17             | 16     | 10      | 5       | 19      | 4       | 8       |           |    |   |    |    |    |    |       |      |       |       |       |       |       |       |           |   |   |    |    |    |    |   |                |       |       |       |        |         |         |           |   |    |    |    |    |   |                   |       |       |       |       |       |        |       |              |   |   |   |    |    |   |   |  |

Q2 c) Find Spearman's coefficient of correlation for the following data. [8 M]

|   |    |    |    |    |    |    |    |    |    |
|---|----|----|----|----|----|----|----|----|----|
| X | 33 | 37 | 42 | 23 | 21 | 15 | 13 | 30 | 39 |
| Y | 17 | 27 | 32 | 12 | 13 | 11 | 9  | 25 | 30 |

Q2 d) A newspaper boy has the following probability distribution of selling a fashion magazine. [7 M]

|                    |      |      |      |      |      |
|--------------------|------|------|------|------|------|
| No. of copies sold | 10   | 11   | 12   | 13   | 14   |
| Probability        | 0.10 | 0.15 | 0.20 | 0.25 | 0.30 |

Each magazine cost him Rs. 30/- and is sold at Rs.50/-. The newspaper boy cannot return the unsold copies. Determine optimum number of the copies the newspaper boy should order using EMV criterion.

Q3

a) Find moving averages for the following time series of the following companies. [8 M]

i) by 3-yearly moving average method

|         |      |      |      |      |      |      |      |      |
|---------|------|------|------|------|------|------|------|------|
| Years   | 2000 | 2001 | 2002 | 2003 | 2004 | 2005 | 2006 | 2007 |
| Exports | 46   | 53   | 72   | 57   | 62   | 78   | 60   | 85   |

ii) by 5-yearly moving average method

|       |      |      |      |      |      |      |      |      |      |      |
|-------|------|------|------|------|------|------|------|------|------|------|
| Year  | 1996 | 1997 | 1998 | 1999 | 2000 | 2001 | 2002 | 2003 | 2004 | 2005 |
| Sales | 51   | 53   | 50   | 57   | 60   | 55   | 59   | 62   | 68   | 70   |

Q3 b) Calculate Laspeyre's, Paasche's price and Marshall Edgeworth price index number of the following. [7 M]

| Commodity | Base Year |          | Current Year |          |
|-----------|-----------|----------|--------------|----------|
|           | Price     | Quantity | Price        | Quantity |
| Rice      | 4         | 15       | 5            | 20       |
| Pulses    | 8         | 20       | 12           | 30       |
| Wheat     | 6         | 25       | 8            | 20       |
| Butter    | 6         | 3        | 8            | 4        |
| Sugar     | 14        | 2        | 20           | 3        |

Or

Q3 c) Calculate the cost of living index number for the following data. [8 M]

i) by family budget method

| Group             | Weights<br>$W$ | Index Number<br>$I$ |
|-------------------|----------------|---------------------|
| Food              | 48             | 160                 |
| Fuel and Lighting | 7              | 120                 |
| Clothing          | 10             | 140                 |
| House Rent        | 10             | 100                 |
| Miscellaneous     | 15             | 80                  |

ii) by aggregative expenditure method

| Commodity | Unit  | Quantity Year 2004 | Price Per unit |           |
|-----------|-------|--------------------|----------------|-----------|
|           |       |                    | Year 2004      | Year 2006 |
| Rice      | Kg    | 15                 | 3              | 4         |
| Wheat     | Kg    | 18                 | 2              | 3         |
| Pulses    | Kg    | 12                 | 5              | 6         |
| Sugar     | Kg    | 8                  | 4              | 5         |
| Ghee      | Kg    | 5                  | 10             | 12        |
| Milk      | Litre | 10                 | 3              | 4         |

Q3 d) Fit a straight line trend by the method of least squares for the following data which represents the expenditure in lakhs of Rs. on advertisements on a certain company. Find the trend values and also find an estimate for the year 2006. [7 M]

| Year         | 1997 | 1998 | 1999 | 2000 | 2001 | 2002 | 2003 | 2004 |
|--------------|------|------|------|------|------|------|------|------|
| Expen diture | 21   | 24   | 32   | 40   | 38   | 49   | 57   | 60   |

Q4

Choose the correct alternative

15

15

1. For certain action, pay -offs under 3 states of nature as 10,20,5, and probabilities are 0.5, 0.2, 0.3 then EMV is :

a. 10                      b) 15                      c) 10.5 d) 11.5

2. If the arithmetic mean of 7,8,X,11,14 is X, then X = \_\_\_\_\_.

a. 9                      b) 9.5                      c) 10                      d) 10.5

3. The range for the data 12, 27, 8, 16 & 19 is \_\_\_\_\_

a. 13                      b) 15                      c) 17                      d) 19

4. If standard deviation of the given distribution is 16, then its variance is \_\_\_\_\_

a. 4                      b) 8                      c) 64                      d) 256

5. Coefficient of correlation lies between \_\_\_\_\_

a. -1 and +1                      b) -2 and +2                      c) 0 and 1                      d) None of these

6. If  $Q_1 = 20$   $Q_2 = 45$  &  $Q_3 = 60$  then the Coefficient of Semi-inter quartile range = \_\_\_\_\_

a. 0.3                      b) 0.4                      c) 0.5                      d) 0.6

7. If two variables vary together in opposite direction, then there is \_\_\_\_\_ correlation.

a. negative                      b) positive                      c) zero d) None of these

8. If  $\sum |x - \text{mean}| = 70$ ,  $n = 10$  and mean = 14 then coefficient of mean deviation = \_\_\_\_\_

a. 0.2                      b) 0.3                      c) 0.4                      d) 0.5

9. Time series model may be \_\_\_\_\_

a. an additive model                      b) a multiplicative model                      c) either (a) or (b)  
d) neither (a) nor (b)

10. A card is drawn from a pack of 52 playing cards then the probability of one card to be selected as a club card is \_\_\_\_\_

- a.  $1/4$       b)  $1/2$       c)  $3/4$       d)  $1/6$

11. When mean is 79 and variance is 64 then Coefficient of Variation is \_\_\_\_\_

- a. 123.45%    b) 13.10%    c) 10.13%    d) 81.01%

12. If coefficient of correlation is zero, then both the variables are moving \_\_\_\_\_.

- a. upwards      b) downwards      c) randomly      d) None of these

13. Family budget method is a method used in calculating \_\_\_\_\_

- a. Composite Index    b) Cost of living    c) Kelly's Index number  
d) Fisher's Price index number

14. If  $EOL(A1) < EOL(A3) < EOL(A2)$  then by EOL Criterion the best course of Act is \_\_\_\_\_

- a. A3      b) A2      c) A1      d) A2 & A3

15. EMV Table is calculated from \_\_\_\_\_ table

- a. pay-off    b) money    c) regret    d) risk

**SOMAIYA**

Q.4

a) Name the following:

- 1) Name 2 web browsers
- 2) Name 2 protocols
- 3) Name 2 website examples of B2B
- 4) Name 2 G2G website examples

8 marks

b) Explain in one sentence for the following commands

- 1) var()
- 2) search()
- 3) log()
- 4) sqrt()
- 5) plot()
- 6) rep()
- 7) hist()

7 marks

| <b>Question No.</b> |  | <b>Max. Marks</b> |
|---------------------|--|-------------------|
| Q1                  | a) Define and explain Organisational behaviour. [7]<br>b) Describe importance of Motivation? State the features of Motivation. [8]<br><b>OR</b><br>c) Explain McGregor's Participation theory in detail. [7]<br>d) State the advantages of Teamwork. [8]   | 15                |
| Q2                  | a) State the process of Team Building. [7]<br>b) State the Stages in Group development. [8]<br><b>OR</b><br>c) What is Group Decision making? State the advantages of Group Decision making. [7]<br>d) What is Leadership? State the characteristics of Leadership. [8]  | 15                |
| Q3                  | a) What is conflict? state some forms of conflict. [7]<br>b) What is Negotiation? state various styles of negotiation. [8]<br><b>OR</b><br>Have you ever used a bar of Dove soap, or eaten a tub of Ben & Jerry's ice cream? If you have, you know Unilever. With over 170,000 employees and \$45 billion in revenue, Unilever is one of the top consumer goods companies in the world. Born from an 1885 British-Dutch partnership that merged several companies into one in 1930, the company has grown to produce many well-known products. You likely know Axe, Dove, Heartbrand, Knorr, Lipton, VO5, Nexxus, TRESemmé, Mrs. Dash, and Sunsilk, just to name a few.<br><br>The company has four divisions: foods, specialty chemicals, home care, and personal care. Every year, Unilever buys and sells large companies. It has sold companies we know like Slim Fast, Jiffy, and Bertolli in recent years. With an ever-changing portfolio, it's hard to imagine that the company can ever rely on a consistent <b>corporate culture</b> . You would think that a company that goes through this many changes would have difficulty developing into a corporation that interacts or behaves in a certain way. Unilever is in 170 countries, after all, and | 15                |

has a history of morphing its behaviors with different mergers and acquisitions. Unilever's corporate culture was one of independence where companies could be bought and sold based on their success in a specific geographical area. Employees had independence to express themselves and the company had given defined status to all the employees.

Observing the above case answer the following

Q1: State the importance of Organisational culture in establishment of a successful organisation. [7]

Q2: State various guidelines to face the cultural change in organization. [8]

Q4

A: FILL IN THE BLANKS

[5]

15

1. -----is a complex psychological experience of an individual's state of mind as interacting with biochemical(internal) and environmental(external) influences.

(Emotions, Personality, Need)

2. ----- leaders play like a father figure and take care of their followers. (autocratic, bureaucratic, paternalistic)

3. ----- theory of leadership assumes that great leaders are not born, they are made.

(The Great man theory, Traits theory, Behavioral theory)

4. Rational decision-makers assess the long-term effects of their decisions and have a strong fact-based task orientation to -----

(decision making, thinking, implementing)

5. -----dynamics tend to influence decisions and people transactions heavily.

(power, decision, rationality)

B: STATE TRUE/FALSE

[5]

1. A personality test is any of a series of standardized tests designed to measure personality accurately and consistently.

2. Committees formed in an organization are informal groups

3. Contingency theory argues that there is no single best style of leadership so it should be according to the situation faced by leaders.

4. The future of group meetings undoubtedly will include extensive use of online meetings.

5. "The power of actor A over actor B is the amount of resistance on the part of B which can be potentially overcome by A."

C: MATCH THE FOLLOWING

[5]

|   | A                |   | B                                     |
|---|------------------|---|---------------------------------------|
| 1 | Melancholic      | a | Belief about a class of people        |
| 2 | Legitimate Power | b | Identification with the job           |
| 3 | Stereotypes      | c | Attractiveness of group               |
| 5 | Cohesiveness     | e | Analytical, wise and quiet individual |

**SOMAIYA**  
VIDYAVIHAR UNIVERSITY

**October 2022**

**Examination: Semester End Examination (UG programmes)**

**Programme code: 01**

**Programme: S.Y.B.Com [Hons] (Sem III)**

**Name of the Constituent College:**  
S K Somaiya College (SKSC)

**Name of the department/Section/Center: B.COM [HONS]**

**Course Code- 131U01C102**

**Name of the course- FINANCIAL A/C - III**

**Duration: 2 Hr**

**Max. Marks: 60**

**Instructions: 1) All questions are compulsory 2) Figures to the right indicates full marks  
3) Use of simple calculator is allowed.**
