Q 2

A. The standard cost of a chemical mixture is as follows:

60% of Material A @ Rs. 60 per kg

40% of Material B @ Rs. 70 per kg

A standard loss of 25% on output is expected in production. The cost records for a period has shown the following usage:

540 kg of Material A @ Rs. 70 per kg 260 kg of Material B @ Rs. 60 per kg

The quantity processed was 680 kilograms of good product.

From the above given information calculate:

- (1) Material Cost Variance
- (2) Material Price Variance
- (3) Material Usage Variance
- (4) Material Mix Variance
- (5) Material Yield Variance

OR

B. From the following data compute Variable Overhead Variances & Fixed Overhead Variances:

Particulars	Budgeted	Actual
Production (in Units)	800	720
Man Hours to produce above	8000	7000
Variable Overheads (Rs.)	20000	18300
Fixed Overheads (Rs.)	40000	42000

Q 3

A. Prepare a cash budget of Malhotra fabrics for the month of April 2018 – July 2018 from the details below.

1. Estimated sales (in Rs.) during 2018

Feb	March	April	May	June	July	Aug
12 lacs	12 lacs	16 lacs	20 lacs	18 lacs	16 lacs	14 lacs

2. On an average 20% of sales are on cash & Bal. credit sale are realised in 3rd month (Jan sales in March)

3. Purchase amount is 60% of sales. Purchase made in a month are generally sold in 3rd month & payment is also made in 3rd month.

4. Variable expenses other than sales commission constitute 10% of sales and there is a time lag of $\frac{1}{2}$ of month in this payment.

15

CO 1

5. Commission on sales is paid @ 5% of sales and payment is made in 3rd month.

6. Fixed expenses p.m. amount to Rs. 7,00,00

7. Other items

Interest payable on deposits – 1,50,000 in the month of April.

Sale of old assets – 1,35,000 in the month of May payment of tax – 80,000 in month of June purchase of FA Rs. 6,00,000 in month of July opening cash balance – Rs 1,50,000

OR

B. ABC Ltd. is a multiproduct company, manufacturing three products A, B and C. The budgeted costs and production for the year ending 31st March are as follows:

The following budgeted information relates to N Ltd. for the year 2021:

Products	X	Y	Z
Production and Sales (Units)	1,00,000	90,000	70,000
Selling price per unit (Rs.)	90	180	140
Direct cost per unit (Rs.)	50	90	95
Machine department (machine hours per unit)	6	4	3
Assembly department (direct labour hours per unit)	3	4	5

The estimated overhead expenses for the year 2021 will be as below:

Machine Department Rs. 73,60,000

Assembly Department Rs. 55,00,000

Overhead expenses are apportioned to the products on the following basis:

Machine Department On the basis of machine hours

Assembly Department On the basis of labour hours

After a detailed study of the activities the following cost pools and their respective cost drivers are found:

Activity Cost Pool	Amt	Cost Driver	Volume
Machining services	64,40,000	Machines Hours	920000 hrs
Assembly Services	44,40,000	Direct labour Hours	11,00,000 hrs
Set up cost	9,90,000	Machine set ups	9000 set ups
order processing	7,20,000	customer orders	7200 orders
purchasing	4,00,000	purchase orders	800 orders

As per an estimate the activities will be used by the three products:

15

CO 5

	X	Y	Z
Machine set ups	4500	3000	1500
Customer orders	2200	2400	2600
Purchase Orders	300	350	150

You are required to prepare a product-wise profit statement using:

- Absorption costing method
- Activity-based costing method

- Q 4
- A. For making 100kg of a Product , the standard Labour requirement is Skilled Labour- 80 hours @ Rs.6 per hour ,Unskilled Labour -40 hours @ 4 per hour .During August 10000 kg of Product was produced .The actual labour cost is as follows : Skilled labour - 7500 hours @ Rs.7 per hour , Unskilled Labour -5000 Hours @ Rs.5 per Hours , What is labour mix variance ?
- B. Give any four applications of Marginal Cost technique for managerial decision making .
- C. A company has introduced a new product & marketed 20000 units . Variable cost of the product is Rs. 20 per unit & Fixed overheads are Rs. 3,20,000.You are required to calculate selling price per unit to earn a profit of 20% on sales value, & Break Even Point in Units.
- D. Explain the concept of Responsibility costing.
- E. Administrative overheads being Semi variable expenses are Rs. 40,000 at 60% (6000 units) capacity. It is 40% Fixed and balance variable. Calculate semi-variable expenses at 80% capacity.

March/April 2026		
Examination: End Semester Examination (UG Programmes)		
Programme code: 02 Programme: BAF	Class: TY	Semester: VI
Name of the School: Dr. Shantilal K. Somaiya School of Commerce and Business Studies	Name of the Department: Accounting and Finance	
Course Code: 231U02C604	Name of the Course: Introduction to International Finance	
Duration : 1 Hr.	Maximum Marks : 30	
Instructions: Answer any three out of four of the following Questions.		

Question No.		Max. Marks	CO
Q1	A. Discuss different types of Exchange Rate Quotations.	05	CO1
	B. Explain the concept of spread along with formula. Calculate spread if spot ₹/\$= 104.90/105	05	CO1
Q2	A. Explain the concept of Purchasing Power Parity. A product costs ₹1,000 in India and \$10 in the USA. The current exchange rate is ₹100/\$ (₹/\$ = 100). If India experiences 10% inflation while the USA has 2% inflation, then: Calculate: New price in India, New Price in USA, and expected future spot rate by using purchasing power parity formula.	10	CO1
Q3	Describe the avenues of International Portfolio Investment.	10	CO2
Q4	Discuss key aspects of Current Assets management in MNCs in detail.	10	CO2

April 2026		
Examination: End Semester (UG Programmes)		
Programme code: Programme: Bachelor of Commerce (Accounting & Finance)	Class: TY	Semester: VI
Name of the School: Dr. Shantilal K Somaiya School of Commerce & Business Studies		Name of the Department : Accounting & Finance
Course Code: 231002C603	Name of the Course: Advanced Costing Techniques	
Duration : 2 Hr.	Maximum Marks : 60	
Instructions: 1)Draw neat diagrams 2)Assume suitable data if necessary 3)Use of Simple calculator only is allowed 4) Do not write name on Graph Paper.		

Question No.		Max. Marks	CO															
Q1	A. Zed Ltd provides following Sales Mix , which is optimal Sales Mix : Mix I- 500 units of A & 500 units of B ;Mix II- 400 Units of A & 600 Units of B OR Mix III- 600 Units of A & 400 Units of B wherein Sales price per unit and Variable cost per unit of A is Rs.12 & 6 respectively AND Sales price per unit and Variable cost per unit of B is Rs.11 & 6 . Overall Fixed cost being Rs. 3000.	03	CO3															
	B. A company has introduced a new product & marketed 20000 units . Variable cost of the product is Rs. 10 per unit & Fixed overheads are Rs. 1,60,000.You are required to calculate selling price per unit to earn a profit of 20% on sales value, & Break Even Point in Units.	03	CO2															
	C. Harley Toys dealing in Toy Car & Toy Doll provides you following data: <table><tr><th></th><th>Budgeted Quantity</th><th>Budgeted Price per unit</th><th>Actual Quantity</th><th>Actual Price per Unit</th></tr><tr><td>Toy Car</td><td>1800</td><td>30</td><td>1900</td><td>35</td></tr><tr><td>Toy Doll</td><td>2200</td><td>60</td><td>2600</td><td>62</td></tr></table>		Budgeted Quantity	Budgeted Price per unit	Actual Quantity	Actual Price per Unit	Toy Car	1800	30	1900	35	Toy Doll	2200	60	2600	62	03	CO4
		Budgeted Quantity	Budgeted Price per unit	Actual Quantity	Actual Price per Unit													
Toy Car	1800	30	1900	35														
Toy Doll	2200	60	2600	62														
Compute Sales Mix Variance. D. Explain the concept of Uniform Costing.	03	CO5																

	E. Wages for the month of Dec, Jan and Feb are Rs. 1,00,000; Rs. 1,50,000 and Rs.2,00,000 respectively. Lag in payment is half month. What will be wages payment for the month of Jan and Feb?	03	CO1																																																	
Q 2	A. From the following information calculate Break Even point, P/V Ratio, Selling price, Quantity Sold . <table> <tr> <th>Year</th><th>Sales</th><th>Profit/loss</th></tr> <tr> <td>2023</td><td>27,00,000</td><td>-40000</td></tr> <tr> <td>2024</td><td>45,00,000</td><td>140000</td></tr> </table> Margin of Safety is 30% of Actual sales. Quantity sold at Break Even is 10 times of Selling price . AND B. Selling price Rs. 60 per unit, Marginal Cost Rs. 20 per unit, Fixed cost Rs. 2,00,000. Draw a Break Even chart and indicate: BEP, Fixed cost line, Sales Line, Margin of Safety, Area of loss/Area of Profit, Angle of incidence. OR C. A farmer asks for your recommendation for optimal mix of production for the coming year . The current data is given below: <table> <tr> <th>Particulars</th><th>Apple</th><th>Guava</th><th>Pear</th><th>Oranges</th></tr> <tr> <td>Areas occupied (acres)</td><td>25</td><td>20</td><td>30</td><td>25</td></tr> <tr> <td>Yield per acre (tonnes)</td><td>10</td><td>8</td><td>9</td><td>12</td></tr> <tr> <td>Selling price per tonne</td><td>10000</td><td>12500</td><td>15000</td><td>13500</td></tr> <tr> <td>Variable cost per Acre :</td><td></td><td></td><td></td><td></td></tr> <tr> <td> Material</td><td>7000</td><td>6000</td><td>9500</td><td>9000</td></tr> <tr> <td> Labour</td><td>20000</td><td>25000</td><td>30000</td><td>37000</td></tr> <tr> <td> Overheads</td><td>20000</td><td>20000</td><td>20000</td><td>20000</td></tr> </table> <u>Fixed Overheads</u> Cultivation & growing : Rs. 7,50,000 Harvesting & Transport : Rs.20,00,000	Year	Sales	Profit/loss	2023	27,00,000	-40000	2024	45,00,000	140000	Particulars	Apple	Guava	Pear	Oranges	Areas occupied (acres)	25	20	30	25	Yield per acre (tonnes)	10	8	9	12	Selling price per tonne	10000	12500	15000	13500	Variable cost per Acre :					Material	7000	6000	9500	9000	Labour	20000	25000	30000	37000	Overheads	20000	20000	20000	20000	08	CO2
Year	Sales	Profit/loss

	Land Revenue : Rs.750,000 Administration : Rs.10,00,000 The land which is being used for production of Apples & Guava can be used for either items but not for Pear & Oranges. The land which is used for Pear & Oranges can be used for either items but not for Apples & Guavas. In order to provide adequate market , the farmer must produce each year atleast 40 tonnes each of Apples & Guava AND 36 tonnes each of Pear & Oranges. You are required to calculate : a) Profit for the current year b) Profit for production mix which you would recommend .		
--	---	--	--

	The company worked 17,500 direct labour hours during the year. For 2,500 of these hours, the company paid at Rs. 12 per hour while for the remaining, the wages were paid at standard rate. CALCULATE (i) Material Cost, Materials price variance & Usage variance (ii) Labour cost, Labour rate & Efficiency variances.																																								
Q4	A. Prepare a cash budget of Malhotra fabrics for the month of April 2018 – July 2018 from the details below. 1. Estimated sales (in Rs.) during 2018 <table border="1"><tr><td>Feb</td><td>March</td><td>April</td><td>May</td><td>June</td><td>July</td><td>Aug</td></tr><tr><td>12 lacs</td><td>12 lacs</td><td>16 lacs</td><td>20 lacs</td><td>18 lacs</td><td>16 lacs</td><td>14 lacs</td></tr></table> 2. On an average 20% of sales are on cash & Bal. credit sale are realised in 3rd month (Jan sales in March) 3. Purchase amount is 60% of sales. Purchase made in a month are generally sold in 3rd month & payment is also made in 3rd month. 4. Variable expenses other than sales commission constitute 10% of sales and there is a time lag of ½ of month in this payment. 5. Commission on sales is paid @ 5% of sales and payment is made in 3rd month. 6. Fixed expenses p.m. amount to Rs. 7,00,00 7. Other items Interest payable on deposits – 1,50,000 in the month of April. Sale of old assets – 1,35,000 in the month of May payment of tax – 80,000 in month of June purchase of FA Rs. 6,00,000 in month of July opening cash balance – Rs 1,50,000 OR B. AB Ltd. is following Activity based costing. Budgeted overheads, cost drivers and volume are as follows: <table border="1"><tr><th>Activity Cost Pool</th><th>Amt</th><th>Cost Driver</th><th>Volume</th></tr><tr><td>Material Procurement</td><td>1842000</td><td>No of orders</td><td>1200</td></tr><tr><td>Material handling</td><td>850000</td><td>no of movements</td><td>1240</td></tr><tr><td>Maintenance</td><td>2456000</td><td>maintenance hours</td><td>17550</td></tr><tr><td>Set up</td><td>912000</td><td>no of set ups</td><td>1450</td></tr><tr><td>Quality Control</td><td>442000</td><td>no of inspection</td><td>1820</td></tr></table>	Feb	March	April	May	June	July	Aug	12 lacs	12 lacs	16 lacs	20 lacs	18 lacs	16 lacs	14 lacs	Activity Cost Pool	Amt	Cost Driver	Volume	Material Procurement	1842000	No of orders	1200	Material handling	850000	no of movements	1240	Maintenance	2456000	maintenance hours	17550	Set up	912000	no of set ups	1450	Quality Control	442000	no of inspection	1820	15	CO1
Feb	March	April	May	June	July	Aug																																			
12 lacs	12 lacs	16 lacs	20 lacs	18 lacs	16 lacs	14 lacs																																			
Activity Cost Pool	Amt	Cost Driver	Volume																																						
Material Procurement	1842000	No of orders	1200																																						
Material handling	850000	no of movements	1240																																						
Maintenance	2456000	maintenance hours	17550																																						
Set up	912000	no of set ups	1450																																						
Quality Control	442000	no of inspection	1820																																						
		15	CO 5																																						

The company has produced a batch of 7,600 units, its material cost was Rs. 24,62,000 and wages Rs. 4,68,500. Usage activities of the said batch are as follows: Material orders: 56 Material movements: 84 Maintenance hours: 1,420 hours Set-ups: 60 No. of inspections: 18 Required: (i) CALCULATE cost driver rates. (ii) CALCULATE the total and unit cost for the batch.

Q1	Nikita Mullick hailed from a middle class family. She is intelligent and also hard working. Right from her school days she harboured the thought of making a career in the corporate world. Her father Sunil Mullick worked as a senior clerk in a private firm and her mother is a school teacher. Being the only child she did not face any constraints of resources. This is her final year B. com. She has joined a reputed coaching centre for four papers in Accountancy. She wants to score distinction. Simultaneously she is preparing for entrance exam so as to be admitted in MBA. She knows it is a difficult target but not impossible. She keeps telling herself "If others can do it, why not me?" Questions: (1) Identify the problems faced by Nikita Mullick? (2) How should she plan to excel in her examination and achieve her goal in life?	10	CO1
Q2	India's telecommunication network is the second largest in the world based on statistics of fixed and mobile phone users in the country. Call tariffs are perhaps the lowest in the world. It has the world's third largest internet base. Indian telecom industry underwent high growth since 1990. It now has the fastest growing telecom markets in the world. G.P. Banarjee is internationally reputed scientist who in late 1990s stated that data traffic over the internet was doubling every quarter. Such fast growth rate required large volume of fiber optic cable which is the backbone of internet. He further elaborated that in foreseeable future demand will far exceed supply. Motivated by this potential opportunity a number of companies rushed into the business. Quest Communications was one such company which jumped into the competition. Prabhat Singh its CEO, advised management to devote more time on planning before raising huge capital, build massive fiber optic networks, cut prices and get ready for the business. Management did not concede to his suggestion and plunged into the business in a big way. It anticipated to make big money in the expected boom. Unexpectedly dot com companies faced bust with the beginning of 2000 and along with dozens of companies Quest Communications also crashed. Questions: (1) Why management did not listen to its CEO?	10	CO1

Q.2.C]	Mrs. Shreya, a trader in Nashik, purchase some goods from Solapur worth 2,00,000/-+ GST@ 18%. Mrs. Shreya claimed ITC of these goods on 15/12/2024. However, she later realized that this ITC was not allowed and hence reversed same on 14/02/2025. Calculate the amount of interest payable.			08	CO2
Q.2.D]	M/s. Nisarg Project accounting year 1st April 2025 to 31st March 2026. The case is assessed. Company filed appeal with commissioner which was disposed off on 01/04/2032. Aggrieved by order of commissioner appeal they file second appeal with tribunal which was disposed of on 11/09/2032. Department filed appeal against tribunal order which was disposed of by High Court on 20/12/2033 and by Supreme Court 31/04/2034. Find out till what date company should retain the books of accounts.			07	CO2
Q.3.A]	From the following particulars given by Anshul Ltd., an importer manufacturer, calculate assessable value, customs duty payable and amount of Input Tax Credit that can be availed by the Anshul Ltd.: a) CIF Value = 1,38,000 US Dollars. b) Air freight, loading, unloading and handling charges associated with the delivery of the imported goods to the place of importation = 35,000 US Dollars. c) Insurance cost 3,000 Dollars. d) Date of presentation of bill of entry for Home Consumption: 30.05.2024 [Rate of BCD 20%; RBI Exchange Rate: ₹ 44.50] e) Date of grant of Entry Inward Order: 27.06.2024 [Rate of BCD 25%; RBI Exchange Rate : ₹43.50]. f) The banker realized the payment from the importer at the exchange rate of ₹45.50 per dollar. g) Rate of exchange per dollar notified by the CBIC (as made effective from 26.04.2024 = ₹44.70; from 27.05.2024 = ₹45 and from 25.06.2024 = ₹44). Rate of IGST of such goods in India: 12%.			15	CO3
	OR				
Q.3.B]	Compute the assessable value and custom duty payable from the following information: Date of import 20th February 2025 a) FOB value of Machine – 8,000 UK Pounds b) Freight paid (air) – 2500 UK Pounds c) Design of development charges paid in UK – 500 UK Pounds d) Commission payable to local agent @2% of FOB in Indian e) Date of bill of entry 24-02-2025 (Rate BCD 10% Exchange rate by CBIC ₹100 per UK Pound) f) Date of arrival of aircraft 20-02-2025 (Rate BCD 18% Exchange rate as notified by CBIC ₹95 per UK Pound) g) Integrated tax leviable under section 3(7) of CTA 1975 @ 12%.			15	CO3
Q.4.A]	XYZ Ltd. has exported following goods to Germany. Write a brief note with reasons whether any duty drawback is admissible under Section 75 of the Customs Act, 1962 in each of the following cases:			08	CO4

Product	FOB value of Exported Goods (Amount in ₹)	Market Price of Goods (Amount in ₹)	Duty drawback rate
A	12,90,000	10,50,000	30% of FOB
B	4,50,000	5,25,000	3.50% of FOB
C	3,60,000	1,80,000	0.75% of FOB
D	2,25,000	2,62,500	1.50% of FOB

Note:

- Imported value of Product B is ₹ 6,00,000
- Product D is manufactured out of duty free inputs.
- Working notes should form part of the answer

Q.4.B] On 20-08-2018, Mr. Bretlee a tourists of Chinese origin comes to India, along with his wife Chinglee and child Brucelee and age of child 2 years. 07 CO4

Particulars	₹
1) Personal effects	
- Bretlee	50,000
- Chinglee	60,000
- Brucelee	30,000
2) Laptops	40,000 each
3) 3 bottles of wine of 1 Liter each total value	6,000
4) Digital Camera	11,000
5) Mobile	20,000

Calculate the Customs duty Payable?

OR

Q.4.C] Determine reward under MEIS from the following particulars, rate of reward may be taken as 6% 08 CO5

- Goods 'P': FOB value declared in shipping bill is ₹5,00,000. FOB value realised due to exchange gains ₹4,90,000.
- Goods 'Q': FOB value declared in shipping bill is ₹8,50,000. FOB value realised due to exchange gains ₹8,75,000
- Goods 'R': FOB value declared in shipping bill is ₹10,75,000. FOB value realised due to exchange gains ₹10,67,500.
- Product 'P': Export through e-commerce platform - FOB value ₹75,000.
- Product 'Q': Export through e-commerce platform - FOB value - ₹25,000.
- Product 'R': Export through e-commerce platform - FOB value - ₹22,000.
- Supplies of products through DTA units to BTP - ₹2,50,000

Q.4.D] B Ltd. is a service exporter of a specified service, having net free foreign exchange earnings of US \$30,000 during the proceeding financial year, requires you to compute its duty scrip entitlement for current year under SEIS: 07 CO5

- Supply from India to US \$45,000.
- Supply from India to service consumer of US in India \$10,000.
- Supply from India through commercial branch in a city of US = \$10,000.
- Supply from India through presence of employees in another city of US = \$8,500.

The total expenses/payments of B Ltd. related to supplies are:
6% of Gross receipt in foreign exchange.
B Ltd. also received

- Loans of \$5,000 from US
- \$1,500 realised on behalf of the client

Notified rate for service is 5%
